4 Purpose of Act

The purpose of this Act is to—

- (a) prevent or manage risks associated with the use of agricultural compounds, being—
 - (ai) risks to public health; and
 - (i) risks to trade in primary produce; and
 - (ii) risks to animal welfare; and
 - (iii) risks to agricultural security:
- (b) ensure that the use of agricultural compounds does not result in breaches of domestic food residue standards:
- (c) ensure the provision of sufficient consumer information about agricultural compounds.

Section 4(a)(ai): inserted, on 18 October 2007, by section 5 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

4A Scheme of Act

- (1) This Act aims to achieve its purpose by providing that no agricultural compound may be used (including imported, manufactured, or sold) in New Zealand unless that use is authorised by or under this Act.
- (2) The 2 main mechanisms for authorising use of an agricultural compound are—
 - (a) an assessment of the compound, and its registration for use subject to specifically imposed conditions:
 - (b) an exemption from the requirement to register the compound, so long as any specified conditions for exemption are met.
- (3) A range of conditions may be imposed to manage the risks associated with agricultural compounds. These conditions may

relate to substances, products, systems, or people's behaviour, and may be imposed—

- (a) directly by the Director-General when an agricultural compound is registered or exempted from the requirement to be registered; or
 - (b) generally, by regulations.
- (4) The Director-General may also issue notices that set out the technical detail of how compliance with conditions imposed by regulations can be achieved.
- (5) This Act, by its subject matter, has a relationship with other Acts such as the Animal Products Act 1999, the Food Act 1981, the Wine Act 2003, the Animal Welfare Act 1999, the Biosecurity Act 1993, the Medicines Act 1981, and the Hazardous Substances and New Organisms Act 1986. Generally, the outcomes for which this Act regulates are those set under the other related Acts. For example:
- (a) maximum residue limits for food products are set under the Food Act 1981; while
 - (b) this Act assesses and controls agricultural compounds to ensure the Food Act residue limit is not breached.

 - (b) are necessary or desirable to amplify the manner in which the requirements of any such regulation may or must be achieved.
- (2) Before issuing a notice under this section, the Director-General must do everything reasonably practicable to consult with the organisations for the time being considered by the Director-General to represent the interests of persons who will or may be affected by the specifications or other detailed requirements contained in the notice.
- (3) Subsection (2) does not apply where the Director-General considers it desirable in the public interest that the notice be issued urgently.

- (4) A failure to comply with subsection (2) does not affect the validity of a notice issued under this section.
- (5) Where a notice under this section affects only 1 person or a small number of persons, and the identity of those persons is known, the Director-General must—
- (a) notify the persons individually in writing, whether personally by post or facsimile addressed to the person, or by electronic means acceptable to the person; and

76 Recommendation of Order in Council

The Minister must recommend the making of an Order in Council under section 75(1)(a) if the Minister considers—

- (a) that the likely cost of assessing and registering an agricultural compound as a trade name product is greater than the likely risks from the use of that agricultural compound without registration; or
- (b) the likely risks of that substance, mixture of substances, or biological compound if used as an agricultural compound are already adequately managed by restrictions placed on that substance, mixture of substances, or biological compound under any other Act.

77 Warranties

The registration of any trade name product under section 21 or section 27, or the exemption of any agricultural compound from registration under section 8A, does not imply a warranty by the Crown or the Director-General that the trade name product or agricultural compound is reasonably fit for the purpose for which it is sold, or that the agricultural compound complies with any labelling or other consumer information relating to that compound.

- (3) An application for a review must—

Section 80: amended, on 18 October 2007, by section 50 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

Cost recovery

Heading: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81 Principles of cost recovery

- (1) The Minister and the Director-General must take all reasonable steps to ensure that the direct and indirect costs of administering this Act that are not provided for by money appropriated by Parliament for the purpose are recovered under this section and sections 81A to 83 (referred to in this section and those sections as the **cost recovery sections**), whether by way of fees, levies, or otherwise.
- (2) In determining the most appropriate method of cost recovery under section 81A, and its level, in any particular case or class of cases of agricultural compound, business, person, or other matter, the Minister and Director-General must have regard, as far as is reasonably practicable, to the following criteria:
 - (a) equity, in that funding for a particular function, power, or service, or a particular class of function, powers, or services, should generally, and to the extent practicable, be sourced from the users or beneficiaries of the relevant function, power, or service at a level commensurate with their use or benefit from the function, power, or service:
 - (b) efficiency, in that costs should generally be allocated and recovered in order to ensure that maximum benefits are delivered at minimum cost:
 - (c) justifiability, in that costs should be collected only to meet the reasonable costs (including indirect costs) for the provision or exercise of the relevant function, power, or service:
 - (d) transparency, in that costs should be identified and allocated as closely as practicable in relation to tangible service provision for the recovery period in which the service is provided.
- (3) Costs should not be recovered under the cost recovery sections unless there has been appropriate consultation with affected parties and relevant industry organisations in accordance with section 78, and the parties involved have been given sufficient time and information to make an informed contribution.
- (4) Nothing in subsection (3) or section 78 or 81C requires consultation in relation to specific fees or charges, or the specific levels of fees or charges, so long as the fees or charges set

are reasonably within the purview of any general consultation or any consultation carried out for the purposes of section 78, and a failure to comply with subsection (3) does not affect the validity of any regulations made for the purposes of these cost recovery sections.

- (5) Nothing in this section requires a strict apportionment of the costs to be recovered for a particular function or service based on usage; and, without limiting the way in which fees or charges may be set, a fee or charge may be set at a level or in a way that—
- (a) is determined by calculations that involve an averaging of costs or potential costs:
 - (b) takes into account costs or potential costs of services that are not directly to be provided to the person who pays the fee or charge but which are an indirect or potential cost arising from the delivery of the service in question to a class of persons or all persons who use the service.

Section 81: substituted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81A Methods of cost recovery

The methods by which costs may be recovered under the cost recovery sections are as follows:

- (a) fixed fees or charges:
- (b) fees or charges based on a scale or formula or at a rate determined on an hourly or other unit basis:
- (c) use of a formula or other method of calculation for fixing fees and charges:
- (d) the recovery by way of fee or charge of actual and reasonable costs expended in, or associated with, the performance of a service or function:
- (e) estimated fees or charges, or fees or charges based on estimated costs, paid before the provision of the service or function, followed by reconciliation and an appropriate further payment or refund after provision of the service or function:
- (f) refundable or non-refundable deposits paid before provision of the service or performance of the function:

- (g) fees or charges imposed on users of services or third parties:
- (h) levies:
- (i) any combination of the above.

Section 81A: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81B Cost recovery to relate generally to financial year

- (1) Except as provided in subsection (2), any regulations under the cost recovery sections that set a fee, charge, or levy that applies in any financial year—
 - (a) must have been made before the start of that financial year; but
 - (b) except as the regulations may otherwise provide, apply in that year and all subsequent years until revoked or replaced.
- (2) Subsection (1) does not prevent the alteration or setting during any financial year of a fee, charge, or levy payable in that year if either—
 - (a) the fee, charge, or levy is reduced, removed, or restated without substantive alteration; or
 - (b) in the case of an increase or a new fee, charge, or levy,—
 - (i) appropriate consultation in accordance with section 78 has been carried out with persons or representatives of persons substantially affected by the alteration or setting; and
 - (ii) the Minister is satisfied that those persons, or their representatives, agree or do not substantially disagree with the alteration or setting.
- (3) Subsection (1) does not prevent the amendment of any regulation setting a fee, charge, or levy if any substantive alteration effected by the amendment is for the purpose of correcting an error.
- (4) Recovery may be made in any financial year of any shortfall in cost recovery for any of the preceding 4 financial years, and allowance may be made for any over-recovery of costs in those years (including any estimated shortfall or over-recovery for the immediately preceding financial year).

Section 81B: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81C Three-yearly review of cost recovery

- (1) The Minister must cause to be reviewed, at least once in every 3-year period occurring since the original setting of, or latest change to, the levels and methods of cost recovery in relation to any class of agricultural compound, business, person, or other matter, the levels and methods of cost recovery in the relevant area that are likely to be appropriate for the following financial year or years.
- (2) The Minister must ensure that appropriate consultation in accordance with section 78 takes place in relation to any such review.
- (3) A review may make provision for recovery in any relevant financial year of any shortfall in cost recovery for any of the preceding 4 financial years, or make allowance for any over-recovery of costs in those years (including any estimated shortfall or over-recovery for the immediately preceding financial year).
- (4) Subsection (1) does not require all areas of cost recovery to be reviewed at the same time, nor does it impose any time limit on the making of regulations to implement the results of a review.

Section 81C: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

- (3) Different fees and charges, or different rates or types of fee or charge, may be prescribed in respect of different classes or descriptions of agricultural compound, persons or businesses, operations, or other matters, or any combination of them.
- (4) Without limiting subsection (3), the fees and charges prescribed may—

- (a) differ depending on whether or not a special or urgent service is provided:
 - (b) include more than 1 level of fee or charge for the same service provided in different ways, or provided in or in respect of different places:
 - (c) differ for otherwise similar services provided in different ways:
 - (d) differ for otherwise similar services provided to different categories of person:
 - (e) differ depending on the amount of service required or the components of the service required for the particular person or class of person.
- (5) Where regulations prescribe a formula for determining a fee or charge, the formula may specify the value of 1 or more of its components as being an amount or amounts notified for these components by the Director-General by notice in the *Gazette*.
- (6) The Minister may not recommend the making of regulations under this section unless satisfied that, to the extent appropriate in the circumstances, the requirements of sections 81 and 81B have been met.

Section 81D: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

- (1) Regulations may be made under this Act, on the recommendation of the Minister, prescribing levies for the purposes of this Act.
- (2) Different levies or rates of levy or bases on which an amount of levy is to be calculated or ascertained may be prescribed for different purposes, and different levies or rates of levy or bases for calculation may be set for different classes or descriptions of agricultural compound, persons or businesses, operations, or other matters, or any combination of them.
- (3) Without limiting the generality of subsection (1), regulations imposing levies may—

 - (e) require the keeping of separate trust accounts for levy money received or deducted by persons responsible for collecting levies, and prescribe matters in relation to those trust accounts:
 - (f) prescribe a method of arbitration or mediation in the case of disputes as to—
 - (i) whether or not any person is required to pay, or collect, the levy concerned; or
 - (ii) the amount of levy any person is required to pay or collect:
 - (g) provide for related matters, including procedures and remuneration for arbitrators or mediators.
- (4) The Minister may not recommend the making of regulations under this section unless satisfied that, to the extent appropriate in the circumstances, the requirements of sections 81 and 81B have been met.

Section 81E: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81F Trust accounts required to be kept by persons collecting levies

- (1) If regulations made under section 81E require the operation of a trust account for any levy money by the person responsible for collecting the levy,—
- (a) any amount held in such an account that is due to be paid to the Director-General by the levy collector is to be treated as levy money held on trust for the Director-General; and
 - (b) any amount so held on trust is not available for the payment of any creditor (other than the Director-General) of the levy collector, and is not liable to be attached or

- taken in execution at the instance of any such creditor;
and
- (c) a person who ceases to be a person responsible for collecting a levy must continue to maintain the trust account until all the levy money payable to the Director-General in respect of the period during which the person was responsible for collecting the levy has been paid.
- (2) Nothing in subsection (1)(c) affects any obligation or liability under this Act of any other person who has become responsible for collecting the levy concerned.

Section 81F: inserted, on 18 October 2007, by section 51 of the Agricultural Compounds and Veterinary Medicines Amendment Act 2007 (2007 No 93).

81G Other charges not requiring to be prescribed

- (1) Nothing in the cost recovery sections or in any other provision of this Act prevents the Director-General from requiring a reasonable charge to be paid for any of the services the Ministry provides in relation to the administration of this Act, or any actual and reasonable expenses incurred in providing the services, other than services in respect of which a fee or charge or levy is prescribed under these cost recovery sections.
- (2) Without limiting subsection (1), and for the avoidance of doubt, the Director-General may—

2 Status of reprints

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 How reprints are prepared

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and

provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, see <http://www.pco.parliament.govt.nz/editorial-conventions/> or Part 8 of the *Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force*.

4 *Changes made under section 17C of the Acts and Regulations Publication Act 1989*

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)

- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)
- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
